

Pre-post embedding shift within respondent (self-comparison)

Humans and GenAI

Metric: cosine distance between each respondent's pre-ML and post-ML embedding (self-comparison)

Two-sided Welch t-test on mean self pre-post cosine distance (Humans vs GenAI).
NS ($p \geq 0.05$), * ($p < 0.05$), ** ($p < 0.01$), *** ($p < 0.001$)
