

Thin-group variability of theoretical explanations (Humans vs GenAI)

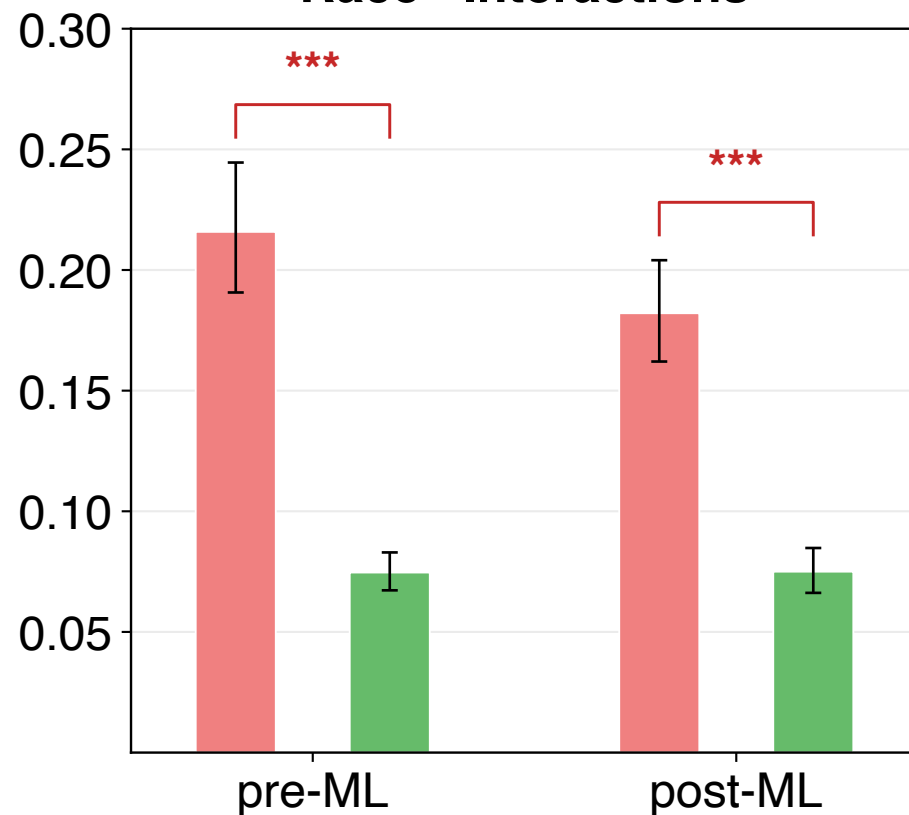

Metric: mean(cosine distance to group centroid), higher = more dispersed

Humans GenAI

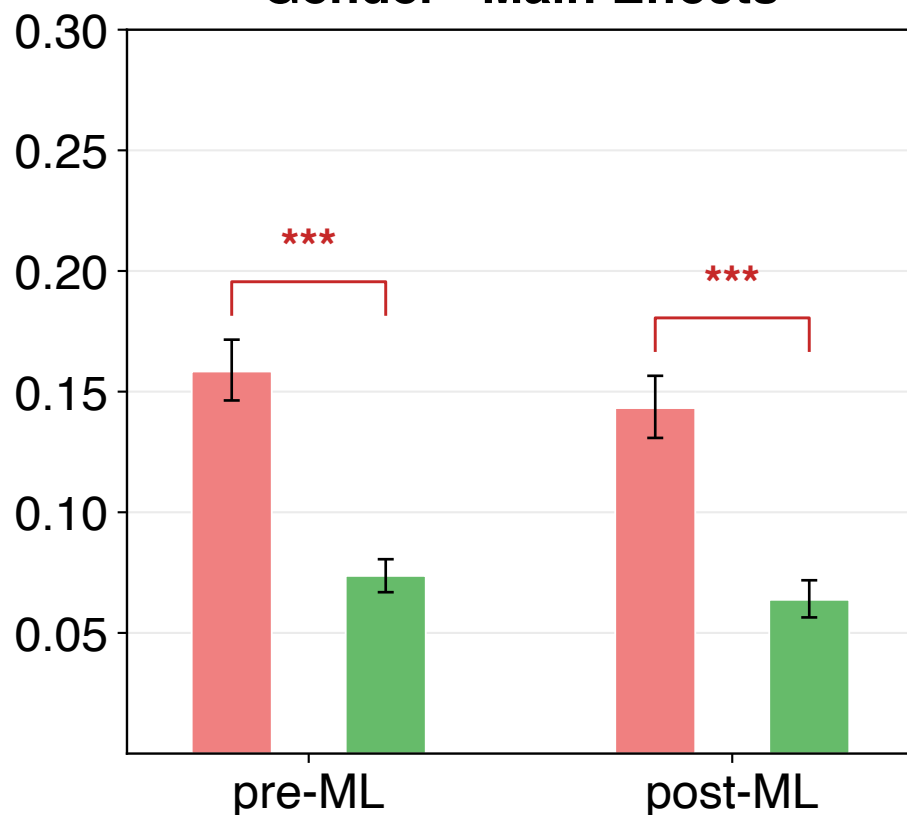

Race · Main Effects

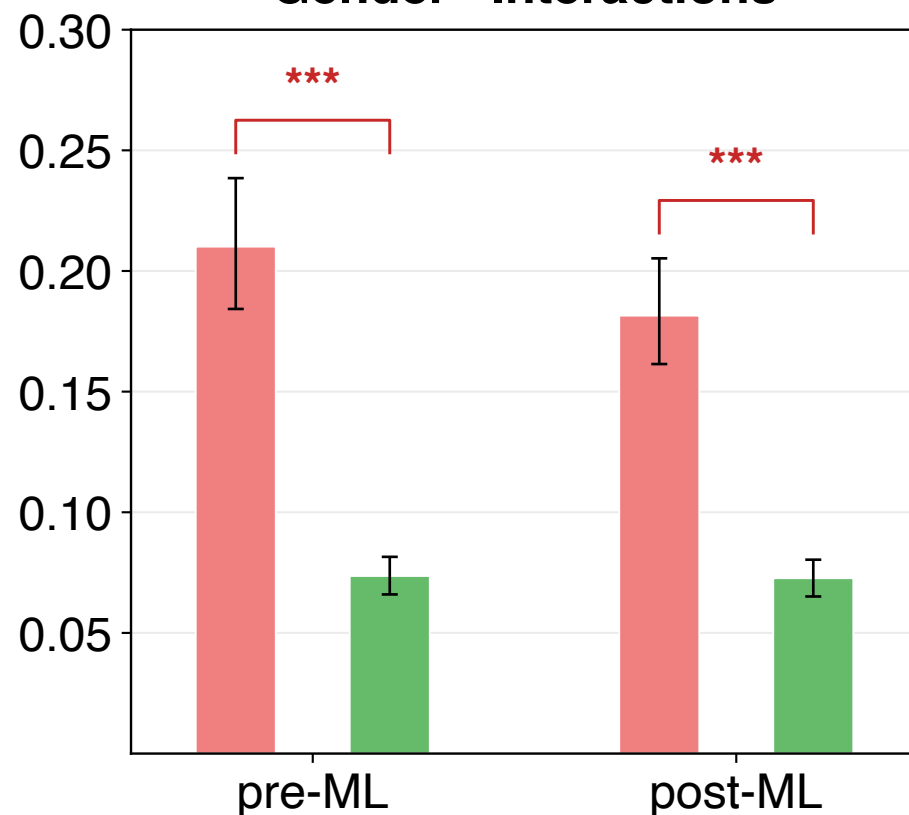

Race · Interactions

Gender · Main Effects

Gender · Interactions

Error bars: bootstrap 95% CI.

One-sided Welch t-test (directional: Humans > GenAI).
NS (p ≥ 0.05), * (p < 0.05), ** (p < 0.01), *** (p < 0.001)
